

Table S1. Questionnaire

No.	Question
1	What is your specialty?
2	How long have you been treating trauma patients after becoming a specialist?
3	What region do you work in?
4	What size hospital do you work for?
5	Does the hospital where you work have periodic multidisciplinary meetings with the Departments of Neuropsychiatry, Rehabilitation Medicine, and Anesthesiology and Pain Medicine?
6	If yes, what department? Please select all that apply.
7	Do you have regular multidisciplinary rounds with Departments of Neuropsychiatry, Rehabilitation Medicine, and Anesthesia and Pain Medicine?
8	If yes, what department? Please select all that apply.
9	What is the condition of the patient who is mainly referred for rehabilitation treatment? Please select all that apply.
10	How often do you consult with the Department of Rehabilitation Medicine?
11	How active is the Department of Rehabilitation Medicine at the hospital where you work in treating trauma patients?
12	What kind of rehabilitation treatment is provided in the ICU at your hospital?
13	What is the average number of rehabilitation treatments per week in the ICU?
14	What kind of rehabilitation treatment is provided in the ward at your hospital? Please select all that apply.
15	What is the average number of rehabilitation treatments per week in the ward?
16	Do you know how long it takes per rehabilitation treatment for severe trauma patients?
17	How helpful do you think collaboration with the rehabilitation medicine department of the hospital you work is for severe trauma patients?
18	Have you ever had problems due to a lack of rehabilitation medical support?
19	Have you ever needed a transfer to the Department of Rehabilitation Medicine, but it was delayed or not fulfilled?
20	If it is determined that intensive rehabilitation treatment is absolutely necessary, where do you usually send patients?
21	Where do you usually send patients if you think rehabilitation can be helpful?
22	How long does it take, on average, after being transferred to the Department of Rehabilitation Medicine or a hospital related to rehabilitation?
23	If you feel that rehabilitation medical support is lacking, what do you think is the cause? Please select all that apply.
24	Do you feel the need for multidisciplinary treatment with the Department of Rehabilitation Medicine at the trauma centers?
26	What are the psychiatric problems that are mainly referred to due to problems that occur in severe trauma patients? Please select all that apply.
25	How often do you consult with a neuropsychiatrist due to problems that occur in severe trauma patients?
27	Is the neuropsychiatric department of the hospital where you work active in treating trauma patients?
28	Do you think the collaboration with the neuropsychiatrist at the hospital where you work is helpful for severe trauma patients?
29	Have you ever had problems due to a lack of neuropsychiatric support?
30	Have you ever needed a transfer to a neuropsychiatric or mental health-related hospital, but it was delayed or not done?
31	If you feel that there is a lack of neuropsychiatric support in the treatment process of severe trauma patients, what do you think is the cause? Please select all that apply.
32	Do you feel the need for multidisciplinary treatment with a neuropsychiatrist at the trauma center?
33	What is the scope of support from the Department of Anesthesiology and Pain Medicine? Please select all that apply.
34	How often do you consult with the Department of Anesthesiology and Pain Medicine?
35	Is the Department of Anesthesia and Pain Medicine at the hospital you work active in treating trauma patients?
36	How helpful do you think the collaboration with the anesthesiology department at the hospital where you work is helpful to patients?
37	Have you ever had problems due to a lack of support from the Department of Anesthesiology and Pain Medicine?
38	Do you feel the need for multidisciplinary treatment with the Department of Anesthesiology and Pain Medicine at the trauma centers?
39	How long do you usually do outpatient follow-up after discharge?
40	What is the approximate percentage of your patients who visit the outpatient clinic more than two times?
41	What are the criteria for referral to other departments in the outpatient clinic? Please select all that apply.
42	Do you think it is necessary to evaluate the condition of trauma patients multifacetedly (wholly) after the acute phase of treatment?
43	If you have any other comments, please feel free to write them.

ICU, intensive care unit.
