

**Fig. S4.** The lower 1/2 level of the sternum at the mid-axillary line. (A) The mid-axillary line is shown on the median plane (a). The antero-posterior scout line is located at the lower 1/2 level of the sternum (b). (B) Scrolling to the right side of the torso while maintaining the lower 1/2 level of the sternum and the mid-axillary line is shown. (C) When moving to the right end of the torso, the lower 1/2 level of the sternum at the mid-axillary line (a) is located at the 5th intercostal space (b).
